

The Next Generation in Pressure Sewer Equipment

Design

- Low profile lid blends into gardens
- Dry well pump installation - provides a clean environment
- 'Plug 'n' Play' electrical connections
- Single & dual pump configurations
- Available in a range of tank options to suit every requirement
- UL Certified

Safety

- Inherently safe design
- No access to wet well when lid removed
- Grinder pump not submerged in sewage

Protection

- Electronic over pressure monitoring to protect unit and network integrity
- Intelligent auto-correcting controls
- Vertical self-cleaning inlet
- Telemetry ready

Peace of Mind

- UL Certified
- Zero scheduled maintenance
- Supported by Monoflo Pumps - a company with over 55 years industry experience

Performance

- Superior performance - 16 g/min @ 200ft discharge head
- Highly efficient motor & pump means lower operating costs

Monoflo® 

One Company, Unlimited Solutions

Highly Rugged and Effective

- Developed by a specialist PC pump company
- Full life tested to 200ft pressure head
- High flow
(Single Pump 16 g/min & Dual Pumps 32 g/min)
- 'Plug 'n' Play' electrical connections for fast and easy change over
- Powerful bi-hammer macerator
- Highly efficient progressive cavity pump

The Ultimate in Pump and Network Control

- Highly accurate, electronic over pressure protection
- Protect pump and network from pressure spikes
- Grinder pump not submerged in sewage
- Automatic voltage monitoring to protect against "brown-outs"
- Data logging built in as standard
- All units easily upgraded to full telemetry
- Automatic problem correction
- Visual and audible alarms
